

Legal Health Check for Veterinary Practices

- Review of all major legal aspects including preparation for sale
- Face to face meeting*
- Fixed price
- Full written report

The aim of the legal health check for veterinary practices is to ensure that you and your practice can identify those areas of your business in relation to which you would benefit from the implementation of further legal structure, advice and support including possible preparation for sale. This will assist you in relation to internal growth, expansion by acquisition, succession planning and possible sale.

*subject to the package chosen.

Packages

Our legal health check for veterinary practices is offered at three different levels, depending on the size of your practice and your specific requirements. The table below sets out a summary of the options available, what is included and also the cost.
